From the facility to design, to the facilities to build. PEC has it all

PEC has been manufacturing in the South West of England for over 40 years. The company's success is based upon the product of engineering skill and expertise provided by its dedicated and determined personnel. We have a fully equipped fabrication factory, dedicated paint shop, comprehensive machining facilities, and CAD design suite. These facilities have enabled the company to build a large customer base which spans the globe.

PEC believes that every contract is as valuable as the next; we realise that our customers always require the best quality, reliability and value for money - regardless of contract value. This is why we are proud to state that not only do we supply into a number of international companies, including Intel, Rolls Royce and ESSO; but we also work closely with national and local companies, developing strong, lasting, relationships. The group is able to offer a complete turnkey package, and our teams are available around the clock; enabling us to meet all of our clients' needs.
